| Project Name  | Blog Nest         |
| Maximum Marks | 3 Marks           |

**Problem Statements**

A blog reader and content creator wants to easily create, publish, search and read blogs, but faces difficulty using complex blogging platforms because the required features are not available in a simple and user-friendly way, which makes the user feel frustrated.

| Problem Statement (PS) | I am (Customer)                                  | I'm trying to                                 | But                                                                 | Because                                                                                 | Which makes me feel                                  |
|------------------------|--------------------------------------------------|-----------------------------------------------|---------------------------------------------------------------------|-----------------------------------------------------------------------------------------|------------------------------------------------------|
| PS-1                   | A user who wants to read and create blogs online | Create, publish, search and read blogs easily | Existing blogging platforms may be difficult to navigate and manage | Users need a simple platform with easy blog creation, browsing and interaction features | Frustrated and less interested in using the platform |
