

Code-Layout, Readability and Reusability

Date	30 September 2026
Team ID	SWTID-2026-3326
Project Name	Blog Nest
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the Blog Nest codebase in terms of its structure, readability, maintainability and reusability. The project follows a modular structure so that features such as user management, blog creation, search, comments and likes can be developed and maintained independently.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing and indentation are used throughout the code.	yes	Improves readability and consistency.
2	Proper File Structure	Frontend, backend and database-related files are logically organized.	yes	Makes the project easier to navigate.
3	Meaningful Variable Names	Variables and constants clearly describe their purpose	yes	Makes the code easier to understand.
4	Function / Method Names	Functions use descriptive names based on their purpose.	yes	Helps developers understand functionality quickly.
5	Code Comments	Important logic and complex sections include short comments.	yes	Supports maintenance and future updates.
6	Modular Design	Features are separated into reusable functions, routes and modules.	yes	Reduces duplication and supports reuse.
7	No Redundant Code	Duplicate and unnecessary code is avoided or removed.	yes	Keeps the codebase clean and maintainable.
8	Error Handling	Invalid inputs and server/database errors are handled gracefully	yes	Provides safer and more reliable execution.

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Authentication Module	Node.js / Express / MySQL	Login, registration and protected user features	High

2	Blog Management Module	Node.js / Express / MySQL	Create, view, edit and delete blog posts	High
3	Search & Category Module	JavaScript / Express / MySQL	Blog search and category filtering	High
4	Interaction Module	JavaScript / Express / MySQL	Likes and comments on blog posts	Medium
5	Database Utility Module	MySQL	Reusable database queries and data operations	High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Files and modules are organized logically for easy maintenance.
Readability	5	Consistent naming, indentation and comments make the code easy to follow.
Reusability	4	Common functionality is separated into reusable modules and functions.
Documentation / Comments	4	Important functionality is documented with clear comments.
Overall Score	18/20	Blog Nest follows a clean and maintainable coding structure.
